

Every student feels loved, challenged, and prepared to positively influence society and thrive in life.

FOCUS AREA	LITERACY	MATH	SOCIAL EMOTIONAL LEARNING (SEL) & ATTENDANCE	GRADUATION & POSTSECONDARY PLANNING
SCHOOL STRATEGIES	Accelerate academic growth by ensuring every Woodson Warrior develops the reading and writing skills they need to excel beyond high school graduation, using student data as a guide.	Accelerate academic growth by focusing school-wide on improving students' proficiency in math, especially geometry, using student data as a guide.	Create a safer, more supportive, challenging, and engaging learning environment for students. We will use data to improve all aspects of the student experience – from achievement to attendance to their sense of belonging.	Increase access and rigor for all students and ensure more students are accepted to a SMART college choice, take one or more certification exams, and pass those exams to obtain certification.
EDUCATOR ACTION STEPS	Provide instruction that meets every student's individual needs.	Teach students fundamental skills used to solve math problems, including reasoning and evidence.	Positively and proactively engage students and contribute to a positive school climate.	Participate in an all-staff training about how to support students through the college application process. Provide additional support to students as they transition into 9th grade.
STUDENTS WILL	Meet their growth goals and graduate with the reading and writing skills they need to excel.	Develop the critical thinking skills needed to solve challenging math problems.	Feel engaged and affirmed by staff members and other students every day.	Receive additional support when transitioning into 9 th grade from middle school. Apply for and be accepted into college with support from school staff and/or obtain at least one certification before graduation.
